## THE CHINA MAIL.

the amount of \$24,000. Taking one consideration with another, Captain Roger's life is not a happy one, and on those who know him say that he is a genial commander with ordinary ships, he is entitled to some little sympathy.

A WASHINGTON despatch says that Guiteau's body has been exhumed and boiled so that the flesh might be separated from the bones, for the purpose of articulation of the skeleton. The *Ada* comments on the boiling process in this way:—There is something excessively and hideously indecent in exhuming the remains of the assassin of the late President and boiling them up in the Medical Museum for the purposes of articulation of the skeleton. In fact, there is something so disgusting in the whole affair that a respectable journal thinks twice before alluding to the matter at all. In other lands the worst criminals are allowed to rest in their graves after they have paid the last penalty of the law. Science cannot be subserved in the slightest degree by this man's skeleton. It is an outrage on the decency of the nation that his remains should have been exhumed and put in a casket within a week of his death. The writer goes further, and will say that such an abominably indecent act would not have been permitted outside of the United States, and is a gross insult to every inhabitant of America to-day. The disposition of the remains was willed to Dr. Hicks, a political gospeller and probably as big a fraud as can be found in the over-crowded ranks of American hypocrites. The remains should, in common decency, have been allowed to rest where they were placed, and respectable people who read this morning's despatches will shudder to think that their country in 1882 permits the enactment of such nauseating violations of decency.

## Police Intelligence.

(Before H. E. Wodehouse, Esq.)

Wednesday, August 9.

## HABIT AND REPUTE.

Chun Amun was sentenced to three months imprisonment with hard labour a rogue and vagabond. He was apprehended in Hollywood yesterday for beggar, an offence he had been caught committing more than once. He has been once imprisoned and twice sent to his native district.

## ASSAULT.

Herman Riemer, chief engineer of the German steamer *Welle*, was summoned for assaulting Mak Akun and Mak Achan, boiler-makers, on the 7th instant.

The complainants are in the employ of the Dock Co., and were engaged on board the *Welle* repairing her boilers, the first complainant being the head boiler-maker. According to their statements they were so engaged on Monday when the defendant asked the first complainant when the work would be finished; he was answered tomorrow. The defendant seemed to think that the work ought to have been completed sooner, and, after some wrangling, he knocked the first complainant down by hitting him, and in throwing a piece of wood at him, accidentally missed him and struck the second complainant. The first complainant had no marks. (A witness for the prosecution was fined \$1, or three days' imprisonment for referring to the defendant as "that devil.")

The defendant stated that he cautioned the first complainant against stepping on a small pipe running across the boilers as if he did so the vessel might be blown up: he also asked him when he would be finished; the complainant replied, "I am under your supervision, you mind your own business," made some other insulting remarks and refused to go away from the pipe referred to. The defendant then pushed him over with his knee, whereupon the whole of the boilermakers took their exit by the other steps, while some one struck him with a sharp instrument on the back of the head. Defendant then saw Mr Scott and informed him of the affair, and Mr Scott promised to supply other men at once. The defendant showed a severe wound on the back of the head.

A fine of \$8 was imposed.

## COMMITTED FOR TRIAL.

Wong Yam, fishmonger, was charged by Lam Kwong, shopkeeper, No. 112, Queen's Road East, with stealing one cotton jacket. The prisoner and a companion had gone into the complainant's shop, and, after having been shown two jackets, it was agreed that he would buy a pair of trousers. While the complainant was engaged looking for the trousers the two men bolted with the jackets. Complainant gave chase and captured the prisoner who had one of the jackets in his possession, but his companion escaped with the other. Six previous convictions were recorded against this prisoner; on the last occasion he was sentenced in October, 1871, to five years' penal servitude. The case was committed for trial at the Criminal Sessions of the Supreme Court.

## DRUNK.

John Well and John Ford, seamen on board the British steamer *Oakdale*, admitted having been drunk and incapable yesterday evening. Their little spree cost each of them 50 cents.

LAUGHING FROM WANCHAI POLICE STATION. Li Sam, an unemployed servant, who was identified by An Ayut, accountant in the Chen Shing pawnshop, as the wearer of a silk jacket which had been stolen from a lumber pole, on which it had been hung to dry by a boy in the employ of Inspector Baker, who is in charge of Wanchai Police Station. As he was seen in the station on the day on which the jacket was missing he was convicted of larceny and sentenced to four months' imprisonment with hard labour.

## HOUSE BREAKING.

Lam Akwei, hawkie, was caught in the act of entering the ground floor of the house No. 88, Gilman's Bazaar early this morning. He was accompanied by another Chinaman, but the latter managed to get clear. He was sentenced to six weeks' hard labour.

LARCENY AND RESISTING A WATCHMAN. Lau Kwei was sentenced to six weeks' imprisonment with hard labour for stealing a piece of iron from the Cosmopolitan Dock yesterday, and he was also fined \$5, or in default, further terms of fourteen days' imprisonment for resisting the Dock-watcher who discovered the theft.

## FIGHT THIEF.

A cook named Chun Wun who has served three separate terms of imprisonment with hard labour by attempting to walk off with a packet from the back part of Sam Chee shop, Chai-ki Wan, on Sunday last,

## CHARGED WITH FRAUD.

Wong Asan, residing at No. 8 Gilman's Bazaar, was charged with attempting to obtain by false pretences the sum of thirty cents from U Alai, master of the Fung Tai rice shop, No. 12 Gilman's Bazaar, and the sum of twenty-five cents from Shek Yeung, master of the Tung Wo shop, No. 28 Gilman's Bazaar, on the 18th May last.

Mr Sharp, Crown Solicitor, appeared to prosecute on behalf of the Treasury.

W. Washington despatch says that Guiteau's body has been exhumed and boiled so that the flesh might be separated from the bones, for the purpose of articulation of the skeleton. The *Ada* comments on the boiling process in this way:—There is something excessively and hideously indecent in exhuming the remains of the assassin of the late President and boiling them up in the Medical Museum for the purposes of articulation of the skeleton. In fact, there is something so disgusting in the whole affair that a respectable journal thinks twice before alluding to the matter at all.

The remains should, in common decency, have been allowed to rest where they were placed, and respectable people who read this morning's despatches will shudder to think that their country in 1882 permits the enactment of such nauseating violations of decency.

Mr Sharp, Crown Solicitor, appeared to prosecute on behalf of the Treasury.

W. Washington despatch says that Guiteau's body has been exhumed and boiled so that the flesh might be separated from the bones, for the purpose of articulation of the skeleton. The *Ada* comments on the boiling process in this way:—There is something excessively and hideously indecent in exhuming the remains of the assassin of the late President and boiling them up in the Medical Museum for the purposes of articulation of the skeleton. In fact, there is something so disgusting in the whole affair that a respectable journal thinks twice before alluding to the matter at all.

In other lands the worst criminals are allowed to rest in their graves after they have paid the last penalty of the law. Science cannot be subserved in the slightest degree by this man's skeleton. It is an outrage on the decency of the nation that his remains

should have been exhumed and put in a casket within a week of his death. The writer goes further, and will say that such an abominably indecent act would not have been permitted outside of the United States, and is a gross insult to every inhabitant of America to-day. The disposition of the remains was willed to Dr. Hicks, a political gospeller and probably as big a fraud as can be found in the over-crowded ranks of American hypocrites. The remains should, in common decency, have been allowed to rest where they were placed, and respectable people who read this morning's despatches will shudder to think that their country in 1882 permits the enactment of such nauseating violations of decency.
